The Global 6000 aircraft was designed to help you get things done – from conducting a business meeting to getting a good night’s sleep. Work, rest or play - it’s easy with a Global 6000 business jet. Every detail in this aircraft cabin has been carefully designed to bring you the smoothest, most refreshing, and productive experience you can expect from a business jet. With a class leading combination of range, speed and reliability, you will arrive at your destination with time to spare. The advanced wing technology is the key to enjoying a smooth ride, and possibly the best night’s sleep you will ever have on a business aircraft. Advanced soundproofing materials with proprietary interior and exterior design techniques contribute to lowest-in-class sound levels.

BOMBARDIER *Global 6000*

HB-JSK
