

# AIRBUS H125 ZS-HIU

The powerful, high-performance Airbus H125 is designed to carry out the most demanding missions in the most extreme weather and geographical conditions. Its exceptional lifting capability, high endurance, extended range and fast cruise speed make the Airbus H125 the leader in its class.

Another world record: An Airbus H125 climbed to 3,000 meters / 9,900 ft in 2 minutes 21 seconds and made a world record landing on Mount Everest.
